- Backend
 - NodeJS / NestJS
 - RESTful API
 - JWT Authentication / RBAC
- Database
 - MySQL / MongoDB
- System Management
 - HAProxy, Keepalived, Nginx
 - Ubuntu
- Cloud:
 - VPS
 - AWS (EC2, S3)

EXPERIENCE

MobiFone Service Company Region 9

11/2023 - Present

Fullstack Developer, System Management

- Developed and maintained internal software projects and products deployed for customers and businesses.
- Designed and implemented RESTful APIs using NestJS and MySQL.
- Built reusable React component reducing development time by 20%.
- Implemented GitLab CI/CD for automated build, and deployment.
- Managed Linux servers, Haproxy and production deployments.
- Participated in requirement analysis, technical design, code reviews and release planning.

MobiFone Service Company Region 9

05/2022 - 10/2023

Frontend Developer

- Built cross-platform applications using ReactJS and React Native.
- Integrated RESTful APIs by NodeJS.

PROJECT

Transportation Management

Fullstack Developer

- Developed core frontend modules for a Transportation Management System using ReactJS, focusing on form-heavy and data-driven workflows.
- Built key UI features including customer management, goods management, and transportation order tracking.
- Implemented authentication and role-based access control on the UI, integrating securely with JWT-based APIs.
- Integrated SMS Brandname notification workflows to inform customers when shipments arrive at receiving hubs.
- Developed financial management and reporting dashboards for receipts, payments, and operational statistics.

English Center Management

Frontend Developer

- Team Size: 5
- Developed core frontend modules for a web-based LMS and internal management system using ReactJS.
- Implemented academic management and learning tracking features (programs, courses, classes, learning results, reports).
- Built user management and role-based access control for students, teachers, staff, and parents.
- Developed inventory and financial management modules (products, suppliers, purchasing, sales, tuition, expenses).
